

**Save the Date**

**HAUC(UK) Convention**

**Wednesday 18<sup>th</sup> May 2022 Emirates Old Trafford**

The HAUC(UK) Convention Committee is delighted to announce the return of our 'in person' annual convention next year

Emerging from the COVID-19 Pandemic, the 2022 HAUC Convention will be a great opportunity to 'reconnect' with each other as individuals, and for our industry as a whole. There are weighty challenges at both policy and delivery ends of the telescope for HAUC colleagues to consider ranging from new processes, ever-burgeoning demands for connectivity, and key implications of our national climate change commitments. Building on the extraordinary achievements and cooperation seen during 2020 and 2021, the Convention will assess, explore and illuminate the three core themes of "Collaboration, Connectivity and Climate" for Highway and Utility colleagues in the UK – and chart the prospects for these up to 2025.

Please put a place marker in your diary

More details of the convention programme and how to register will follow in due course.
